

# Introducing TeslarSync

Seamless Data Updates with Real-Time Writeback for Total Efficiency

## Real-Time Data Updates

Access real-time, synced data in Teslar—see updates instantly without ever logging into your core.

## Automated Core Writeback

Modify accounts, customers, payments, and collateral with instant writeback to your core.

## Enhanced Accuracy & Compliance

Eliminate errors and maintain clean data across the board.

## CORE DATA SYNCED IN REAL-TIME

Automate critical banking functions, eliminate manual data entry and ensure real-time synchronization across your core systems. Whether updating customer profiles, processing payments, or adjusting loan collateral, this tool enables seamless automation, reducing errors and enhancing operational efficiency. With full write-back capabilities, actions completed in Teslar are updated automatically in your core system. Save time and effort, minimize human error, and free up more time for your team to focus on higher-value initiatives.

## HOW IS TESLAR DIFFERENT?

Teslar, at its core, is built as a powerful workflow engine, with every process automated and streamlined through flexible, customizable workflows. Teslar's entire platform is designed to simplify operations by automating tasks, reducing manual effort, and providing real-time visibility—making it the ultimate tool for efficiency and scalability.

**215%**

ANNUAL ROI

Increase the ROI of your Teslar Workflow platform with TeslarSync, providing an average 215% return on your investment annually.

**16%**

Give each Loan Operations team member an average of 16% of their workday back—every day.

\*Based on current client usage and workflow completion times

## AVAILABLE CORES

Now accepting Fiserv Premier, Precision, Jack Henry Silverlake and 2020 cores

## KEY CAPABILITIES

These functions can be completed, updated, or maintained directly in the Teslar platform, and will update your core data in real-time.

### Transfer Money

Support functions like construction draws, pay-over-phone, late fee waivers, and fully disperse new loans and fees.

### Modify Accounts & Customers

Update account details like risk ratings, terms, and address changes in real time.

### Automatic Portfolio Refresh

Instantly syncs past-due statuses, individual account and customer details. See updated core data without ever leaving the Teslar platform.

### Modify Collateral

Perform account maintenance seamlessly—add, edit, or remove loan collateral.

### Stop/Void Payments

Setup stop pay on checks or electronic items and place holds on deposits.
